

Barnsdale Road BESS

Storing up to 80 MW of electricity to ensure grid stability and sustainability

Invitation to public consultation event on:
Tuesday 5th November from 2pm-6pm
Kippax Band Social Club, 17 Mount Pleasant, Kippax, Leeds LS25 7AT

Introducing Barnsdale Road

British Solar Renewables (BSR) are bringing forward a proposal for a new development on land to the west of Barnsdale Road, just south of Kippax. The proposal is for an 80 MW Battery Energy Storage Site (BESS) and will help strengthen the local grid infrastructure by storing and regulating energy. The site will be accessed from the Barnsdale road, 600m south of the Home Farm and follows a pre-existing track.

Who we are

British Solar Renewables

British Solar Renewables (BSR) is a leading renewable energy developer and provider of expert services to the renewable energy industry. The company was founded in 2010, from when it has grown into one of the largest integrated developers in the UK developed and built in-excess of 700MWp.

BSR manages every stage of the project lifecycle, ensuring detailed design, construction, and long-term success, with full ownership and responsibility from development through to operations and maintenance.

Community benefits

BSR are pleased to announce our intention to provide a Community Benefit Fund alongside our proposals, of up to £160,000, to support local projects and to benefit the local community.

We are keen to hear your ideas for where we might partner for the provision of this fund. Please get in touch with us via the methods outlined in this leaflet, or speak to a team member at our public consultation event.
